

floor contructions....

Full fitting instructions are supplied with every tanking kit, and can also be downloaded from www.wetrooms.livinghouse.co.uk.

concrete subfloors

AQUAFLOOR is ideal for tanking concrete subfloors.

1. The concrete is removed to the size of the AQUAFLOOR hidden tray.
2. Pipe work and drainage is then installed.
3. Once plumbing is complete the hidden tray is bedded down to sit flush with the 6mm waterproof tanking board.
4. 6mm waterproof tanking boards are secured to the sound surrounding timber subfloor using a good quality flexible tile adhesive.
5. Once the adhesive has set all joints between the tanking boards, hidden tray and walls are then primed ready for the sealing membrane.
6. Sealing membrane is then applied to all joints.
7. Now you wetroom floor is completely tanked ready for tiling.

timber subfloors

AQUAFLOOR is ideal for first and groundfloor timber joist situations.

1. Timber subfloor is removed to the size of the AQUAFLOOR hidden tray.
2. Pipe work and drainage is then installed.
3. Once plumbing is complete the hidden tray is fitted to joists finishing flush to the surrounding tanking boards.
4. Next the 6mm waterproof tanking boards are secured to the sound surrounding timber subfloor using a good quality flexible tile adhesive.
5. Once adhesive has set all joints between tanking board hidden tray & walls are then primed ready for the sealing membrane.
6. The self adhesive sealing membrane is then applied to all joints
7. Now the wetroom floor is completely tanked ready for tiling.

underfloor heating

Many times weve been asked if underfloor heating can be used with our kits. . the answer is yes. We can even supply an electrical version guaranteed by the manufacturer for the situation.

dry deck situations

In situations where there is no gravity fall for the waste drainage a pump system can be fitted.

vinyl wetroom floor system

Our system is compatible for use with vinyl sheet floor covering providing an alternative trap is used, generally tanking board would not be required.

guarantee

For peace of mind AQUAFLOOR comes with a 15 years product warranty which ensures the durability and quality of the product assuming it has been professionally installed to the manufactures instructions.
